## People Who Think Always Go There

People are known by the company they keep when they are in company. People are also known by the clothing they wear at all times. In Richmond people are known by the store they buy their clothing from. For instance, people who think and who study, and who are making their mark in life, go to O. H. Berry & Co., Eleventh and Main Streets, for their clothing. The reason people who think go there is because they know that they are getting the best clothing, latest styles, fairest prices and the best treatment possible. And that's what men think about when they go to buy clothing. It is this policy that has made this the foremost clothing and toggery store in the South.—Adv.
